

Folk, tradition, fun

Start your **JOURNEY**

A training course focused on learning the ancient art of percussion and how to build an artisan drum. The knowledge that is part of intangible heritage of which our land is rich and which in today's society assumes such a fundamental importance that it is safeguarded as a precious asset and a legacy to be preserved.

Our proposal is a workshop experience that, by combining craft and music, manages to give the group skills such as team building, achieving a goal, problem solving skills, creativity, involvement and good fun.

DETAILS OF THE CRAFT AND MUSIC LAB

- Moderator: maestro Santo Vitale
- Participants will be provided with a semi-finished kit to build their own frame drum
- Concert lesson and history of the tambourine
- Basic rhythm of the tarantella
- Rhythm perception laboratory
- Confidence games
- Drum circle

Organization:

- Accommodation in multiple rooms at "A casa di Amici"
- Buffet breakfast
- Artistic experience at "La bottega delle Percussioni"
- Sicilian tambourine created
- Number of participants minimum 16 / maximum 24
- Number of nights 4
- Hours of workshop: 12

The project was born in collaboration of the Vitale brothers, who have been managing the cultural association "La bottega delle Percussioni" in Palermo since 2002 and since 2004 "A casa di Amici" Boutique Hostel, which houses their artistic musical collection.

Most of the instruments, over 250, were created by Santo Vitale, musician, teacher, and Drum Circle facilitator.
